Handwritten Homework Problem Sets (HWHW)

The HWHW (Handwritten Homework) problem sets are available as replacement classwork points (CPs) for missed peer assessments (PAs).

Please email me at sbarone@math.gatech.edu within 24 hours of the missed peer assessment with a brief explanation of why you missed the PA, and submit up to two sections (6CP each) to me on the same email chain by Friday at 11am the following week. No late work is accepted.

After getting approval, choose 2 sections and make a pdf file named `YourGTID_Chapter_Section.pdf` for each section. So for example, if I wanted to submit §12.4 and §13.1 then I would send these two files within one week:
`sbarone7_12_4.pdf` and `sbarone7_13_1.pdf`

Submissions will be graded on completeness, as well as accuracy, justification, and notation (AJN).

Full solutions for every section are available on Sal's website, but please keep in mind that plagiarism will not be tolerated. You may use my workbooks to check over your answer and help you solve the problems, but any work submitted for class credit must be **entirely your own**.

Exam 1 Set: For any section you choose to submit, please choose at least 8 problems of that section from those listed below, and problems with an $*$ MUST be chosen. For each problem you solve, write the number of the problem, the problem statement, and provide any formulas you are using.
